FAMILY CHARADES FOR IPHONE & IPAD

PantoMeGo

ACT IT OUT · LAUGH · GUESS

Charades with zero preparation: the app draws a kid-friendly word, gives a whisper tip and starts the round. Then it's: put the phone down and act it out. For kids aged 3 and up and the whole family.

What it's about.

PantoMeGo is a **charades app for families**. It takes care of everything that makes charades with young children hard work: finding suitable words, getting them across to kids who can't read yet, and keeping an eye on the clock.

The smartphone only shows the word and starts the round. **The game is played with body language, facial expressions and laughter**, with everyone looking at each other instead of a display.

What makes PantoMeGo special.

- **Whisper tips:** parents or siblings whisper the word and a gesture tip into the child's ear, no reading required.
- **Two play modes:** guided by parents, or on their own for early readers with extra-large text.
- **"Put phone down & act it out!":** after the 3, 2, 1, GO! countdown, the device steps into the background.
- **Round time of your choice:** 30, 60 or 90 seconds or anywhere from 15 to 180, one-tap extension.
- **Reward:** victory fanfare and confetti when the word is guessed.
- **Safe for kids:** offline, no ads, tracking, in-app purchases or account; parental gate with a math question.
